# Work Force

### How to get in

•Have an idea of what kind of job you want to pursue. Look into jobs that are within your capabilities. •Apply and schedule interviews

with possible employers. •Once getting a job, make sure

to work hard and diligently. In any job, improving yourself to be a better worker will catch the eye of bosses.

•Work your way up in your job. Start from the bottom, improve yourself, earn promotions and pay raises as well.

•Be prepared for directly entering the workforce by sustaining a positive working attitude that can work with other individuals, meet deadlines, and understand the workplace.

### Benefits

•High School graduates can avoid the expenses of colleges, including tuition, expensive books, and the time and effort it costs. Considering the competition for jobs requiring college diplomas is high, access to lower degree jobs is more available.

### Salary

•High school graduates earn an average income of \$638 a week if they apply to a job after high school, according to U.S. Bureau of Labor **Statistics** 

Career/Job Opportunities: Many different jobs are available yet there limitations when due to the lack of post high school education

### Jobs

- •Construction worker
- •Retail
- •Delivery
- Postmasters
- •Transportation inspectors
- •Power plant operators •Farmers, ranchers, and
- agricultural managers

•Detective or criminal investigators (Enter Police Academy first)

•Distribution managers

•(Many of these jobs require on the job training)

Information gathered from isbe.net. blogs.edweek.org, and work.chron.com Compiled by Andrew Cadena

### How to get started

•Find a vocational school that has the program you want to go into. •Make sure you have a GED or

high school diploma with a GPA of at least 2.0.

•Consider and complete your application.

•Speak to an admissions representative.

•Take an admissions test. •Get a higher degree (some trade schools require at least a bachelors.)

### **Benefits**

•The cost to get a vocational school degree averages around \$33,000 total verses what a normal university would cost which is \$127,000

•Only takes 2-3 years to complete •In 2018, 57% of jobs will require skilled training while only 33% will require a four year degree

•Technicians/ Skilled Workers in great demand for labor market Salary

•Median salary for people with trade school degree is \$35,720. This may seem low but if factored in that trade school only takes, on average, 2 years to complete. This means that trade school students are already out in the work force with a head start against university students along with less loans to pay.

### Jobs

•Electrician

- •Plumber
- •Dental hygienist
- •Registered nurse
- •Legal Assistant
- •Respiratory Therapist
- •Commercial Driver •Paralegal or Legal Assistant
- •Heavy Equipment Operator
- •Pharmacy Technician
- •Computer Technologist
- •Phlebotomist
- •Auto Body Technician
- •Cosmetologist/Barber •Medical Office Assistance

Information gathered from tradeschools.net and thesimpledollar.com Compiled by Daniella Flores

### Enlistment

•To enlist in the military, U.S. citizens or Permanent Resident Aliens (Issued an INS I-151 or I-551, also known as a "Green Card."). Individuals may enlist at 17 years old with parent consent and at 18 without parent consent.

•After meeting with a recruiter and making a commitment to serve, individuals must set up a date for the next step; the Military Entrance Processing Station (MEPS). Critical items needed include the person's Social Security card, a birth certificate and a driver's license.

•Once at the MEPS and completing the mandatory boot camp for their branch, (locations and boot camps will vary), recruits choose what type of service they will want to serve.

•With 12 branches in total, five are active duty and seven part-time duty (including the Reserves and the National Guard).

### Benefits

•Active duty members receive free health care, including dental care. Spouses and dependent children may apply to a military health care after paying a fee and annual deductibles that may apply. As of 2011, TRICARE, will now cover dependent children until they are 26 years old.

•Active members pay \$29 per month for life insurance, which may go up to \$400,000 under the Service Group Life Insurance.

•Receive \$30,000 after 15 years, then receive a retirement fund after 20 years, which would be about 40% of their highest pay.

### Salary

•An average active duty soldier receives an average of \$99,000 a year, including compensations, housing, and other costs. Salary without these, is estimated to be \$29,380

Study for final exams. This is your last chance to raise your final grades.

- Participate in extra-curricular activities and volunteer for community service that may be necessary to earn certain degrees.
- Consider your finances. Be sure to complete your FAFSA and apply for any scholarships for which you may qualify.
  - Prepare any necessary high school records. Some schools may ask for a copy of your transcripts and letters of recommendation. A portfolio may also be useful.
