by **KATIE DUSEK**
staff writer

The sweltering Savannah heat causes beads of sweat to form on her forehead as senior Naveen Malik explores Africa. During her trip, she was exposed to many new exciting experiences.

"When we went to the

spring where we met this tribe of people that lived around it," Malik said, "and all of the women were taking care of their kids and making jewelry too."

Malik enjoyed the beautiful countryside of where she spent most of her time hunting. The beautiful scenery is where she took this picture

our favorite moment

"I took it at this spring like 50 miles into the desert, so it was a really weird situation because you wouldn't expect palm trees to grow in the desert. It was like a little oasis of hope."
