

I like being in **VOLLEYBALL** because at the beginning of the school year we were not that close, but as the year progressed we slowly turned into a family. I also like how the coaches are very supportive of each player and cheer us on to do our very best.

I appreciate having Coach (Tanner) Toal as a coach, because he always pushes me to get better and better, and we also go over what I can improve on as a player. I like how I can talk to him about my personal life outside of **BASEBALL** and school. I can talk to him about my family or whatever is going on in life.

I really like going to **BASKETBALL** games and sporting events because there are many social aspects to it. I get to hang out with my friends and relax after a stressful day at school and not have to worry about anything, except having a good time.

I really like being in the **MARQUETTES** because we're like one big family. We can all depend on one another to cheer each other up when we're not in the best of moods. I also like how we have bonding moments. We have summer camps and practices in the mornings.

I am in Future Farmers of America, and we showed our **LIVESTOCK** at the last FFA competition. We placed third overall in our category, which is Parliamentary procedure. I raised bunnies this year, but next year I'm getting a goat. This has definitely taught me to care more for animals.

For the first time ever I felt I was involved in a **FAMILY**, which was my basketball team. One of the most memorable times from the season was after the Prosper game. We were devastated when we blew our 20-point lead. After that loss we were able to learn from our mistakes and the next game we destroyed Lovejoy.

With my brother being in **BROADCASTING** with me, I feel like I need to make him proud with every story I do. I make sure that I do all the stories that I'm assigned to do. That way it doesn't look bad on me or my brother.

At first I wasn't sure about being in **ART**, but after we made all kinds of clay projects like clay bowls and a china ball with a rattle inside, I realized that it was so much fun to express myself.

THE PIONEERS

MAKE IT YOUR OWN

With over 800 MacBook Airs deployed to the freshmen, the administrators allowed the students to design their cover. From sports teams to fashion brands, students customized the new laptops based on their personal interests.

"I was excited that I got to customize my laptop cover because then I didn't have to stare at a boring silver cover. I wanted to stand out," freshman Mac Stout said. "My laptop cover is a picture of Messi, my favorite soccer player. Soccer is the one thing I look forward to every day after school, so I thought it would be cool to make soccer my background."

Not only did the students have to adjust to the new laptops, but also the teachers had to learn some new things. "When our teachers have questions about PowerPoint or something they ask the students for help," Mac said. "I like for once we get to show the teachers how to do something and they learn from us because we know more about the laptops than they do."

by Steven Kent

EXPRESS YOURSELF

Since the freshmen received their school-issued laptops, freshman Mena Bahram has designed her cover based on her interests. The laptop cover features a collection of different perfume bottles and flowers. "I made my cover about fashion and design since that's what I'm into," Mena said. "My mom is the reason that I became interested in it because she's really into it as well."

OLD SCHOOL

To show his interest in classic cars, freshman Joel Salazar decorated his laptop with a classic Volkswagen sticker. He customized his laptop this way because he wanted it to stand out from his peers. "I got a design of an old Volkswagen bus as my decal," Joel said. "I chose that because one of my favorite comedians Gabriel Iglesias owns that car."

"I think it is nice to be able to put my own stuff onto something everyone has, and I think it makes my laptop unique compared to what everyone else has. To find the picture I used for my cover I went onto the Internet and began to look around until I found a photo. The picture I chose was of a flower girl fanning out because I thought it symbolized beauty."
-Morgan Lewis
