## This is how you trend, my friend

Vineyard Vines, letterman jackets, chubbies, Lululemon's, and more, you have probably heard of these brands, or more likely seen all these styles because recently everyone seems to be wearing them. Trends are a weird thing, changing every decade, every year and every season. From fashion to music or food there are many different types. Clothing styles are one of the most popular trends. This year, some styles include plaid button up shirts, white converse, sweatshirts, high top converse, ombre, patterned leggings, fuzzy socks and other high socks.

having your individual tastes or personalizing current trends, many students enjoy wearing their own clothing styles and being unique.

Natalie Dezso (8) likes wearing her white converse because not only are they popular, but they also look good. Although Natalie took it one step farther to make her shoes look unique by drawing on them. "You can decorate your clothes to make them cool," she said. Christina Jerrells (8) added, "I can be different by not following other people, I like wearing emoji outfits." Nadia Freeman (8) agreed, "its very important to wear what you want to wear and not what you think others want you to wear because it reflects your personality." In other words, it is important to be yourself.

**The Hornets Have Spoken**

Even though sometimes it's impossible to pick from your two favorite trends, we asked you to do just that. Between music festivals, snazzy sneakers, and the hottest place to get your pies, it's hard to keep up with the trends sometimes. Hopefully this will help you figure out what's hot and what's not. Here are your choices for some 2k15 trends that will embarrass you the least thirty years from now.
