— Gabriel Rossi<sup>09</sup>

## 15 WOULD BE ASIAN

"I'm mixed with black and Asian, so I get along easily with everyone. Back then, when I was a kid, I was made fun of, but after they found out I was mixed, they actually wanted to be my friend, and people wanted to talk to me more."

— Ai My Tran<sup>11</sup>

"People make [Kerr] out to be more full of Asians than it actually is. When I arrived, I saw a lot of people from different races. Everybody in the world is unique. No two people are the same, so everybody in the school has their own personality."

— Gabriel Chamon<sup>09</sup>

## is Kerr really diverse?

"Kerr is very diverse. I see a lot of different people here, and I get to see their culture and hear the languages that they speak. The people I talk to come from different backgrounds, and they always tell me their life story, where they're from, and their customs."

"I stay up almost every night because I procrastinate until 9 and 10 at night. I got used to it, but it's really not worth it. I stay up to check social media, and then just end up getting distracted by my phone. Without it, I wouldn't have been procrastinating in the first place."

— Helen Do<sup>10</sup>
