STUDENTS GIVE THEIR THOUGHTS ON BOOKS AND LIBRARY

The library is a place to collect thoughts, ideas and information whether it is for educational purposes or just for pure enjoyment. It is a place where John Green is found in the hands of a student sitting at a table with her journal open. The library is a place to find quietness when the 1,000 word essay is due next class. It is a place to find your inner vampire or werewolf. The library is a place to find out what Pneumonoultramicroscopicsilicovolcanoconiosis and spectrophotometric mean. It is a place to find students socializing before and after school. The library is a place to find peace after walking through the crowded and dreaded main hallway. It is a place for each and every student to utilize however they please.
