

Piece of Pi

Math classes celebrate Pi Day

Students traded textbooks for pizza, donuts, and cookies and used these circular foods to measure diameter and calculate circumference, radius, and area.

Sweet Calculations

Writing down the diameter of an Oreo, Amy Wuensche, 10th, completes her worksheet. "We got to eat anything we measured and there was a lot to choose from," she said. Students were only allowed to eat the food they selected if they recorded the correct measurements. *Photo by Chelsea Seggern*

Mathematical Motive

After calculating the area, Mario Mendez, 7th, writes down his results in Mrs. Martin's class. "I was trying to work out the problems so I could eat," Mario said. *Photo by Antonio Remmenga*

Texas Day

After spending two weeks learning about Texas' symbols and its features, the Pre-K class participated in Texas-themed stations such as decorating cookies, playing Texas symbol bingo, square dancing, and bandanna decorating. *Photos by Emily Price*

game face.

Concentrating on Madden NFL, Brandon Elliot, 8th, uses his virtual passing skills as part of a health project. "It was a good competition, but I haven't played Madden in a really long time," Brandon said. "I was thinking, 'Oh boy, I forgot the controls!'" Coach Austin Byrd's health class compared their heart rate and the amount of calories burned between playing sport-themed video games and actual sports to see the effects both had on their bodies. *Photo by Brayden Byrd*

Dessert Work

Before eating her cookie, Claire Seigmund, 9th, measures the diameter. "It was a way to take a break from algebra," she said. "It was nice just to try something new for class." Coach Martin's class watched videos about Pi Day while they recorded the measurements of the food they chose.

Pizza Party

To calculate the radius, Kolby Rodriguez, 6th, uses a ruler to measure the diameter of a pizza. "I liked it because it was a day off of class to eat food instead," he said. Pi day is on March 14, but students celebrated early on the day before spring break.

Pi Day, Texas Day, Health Class, Pancake Dinner and Lip Sync Battle

S. Gautreaux, 10th & C. Gautreaux, 12th

A. Holubec, 9th & A. Remmenga, 12th

C. Robinson, 9th & K. Sledge, 9th

Chloe Speer, 12th

Mr. Ed Wrinkle

Bottles of maple syrup, painted plungers, and gift cards were prizes awarded at the senior pancake dinner and lip sync battle.

The crowd favorite was Candace and Sarah Gautreaux for their reenactment of "Dirty Dancing". Kylie Sledge and Claire Robinson captured second with a dramatic performance of "This is Me" from Camp Rock. After an impromptu group dance to High School Musical's "We're All In This Together", winners were announced, and the band *Grand Finale* won 1st place. Seniors raised \$1890.

Seniors host dinner, show

Bailey Thelen, 12th

C. Branson, J. Bodiford, L. Aleman, B. Kramer

"When I found out we won it was mind blowing, because I thought we were one of the worst ones."
-Leroy Aleman, 9th

"It was really cool dancing to 'High School Musical' because it was all on the spot."
-Emily Price, 12th
